SPLIT SAMPLE A

Now for something different. Here are two statements people use to describe the Republicans and Democrats. Please tell me which statement comes closest to your own, personal point of view: **ROTATE STATEMENTS**

29. Republicans say they are the one party that strongly supports faith, religion, and traditional family values. They have proposed a Constitutional amendment against gay marriage because the Bible says marriage is between a man and a woman. They value life and want to limit abortions, including partial birth abortions, which are performed in the last month of a pregnancy. They say it is hard to raise children in American today and elected officials need to live by strong moral values and help families teach their children the right values.

Democrats say real family values mean valuing families and working for good jobs with benefits like health care and good wages so families can spend more time with their children. They say family values means investing in good quality schools so all of our children have the best opportunities to learn, and providing affordable health care for all our children so they come to school ready to learn. And they say family values means taking care of our most vulnerable: the elderly and the children- ensuring comprehensive, affordable health care and prescription drug coverage so they are not choosing between lifesaving drugs and food and heat.

IF ANSWER: Is that strongly or somewhat?

- Republican statement-strongly 1
- Republican statement- somewhat 2
- Democrat statement-somewhat 3
- Democrat statement-strongly 4

Democrats say real family values mean valuing families and working for good jobs with benefits like health care and good wages so families can spend more time with their children. Democrats say they know the most important thing is family- taking care of your children and parents. They are active members of their churches and local communities.
